

As 2024 comes to a close, we reflect on our commitment to community.

We're proud of our investment in local communities through:

- 42 electric safety education and demonstration events
- \$57,000 in high school scholarships for 60 seniors at 20 high schools
- Environmental and cultural learning experiences for 9,000 students using the Wildlife Outreach and Heritage Lab programs
- \$15,000 in scholarships for technical college students in electrical lineworker and skilled trade programs
- \$40,000 for area food shelves, supporting local families in need

The Connexus Energy FoundationSM annually distributes hundreds of thousands of dollars from unclaimed Cash Back to support nonprofit organizations that make a positive impact in our service territory.

We're excited to continue our commitment of donating \$1,500 each month to a qualifying nonprofit through the Your Community Your Choice program.
